„NOVO” - VOCABULARY TEST RESULTS

ABOUT THIS TEST

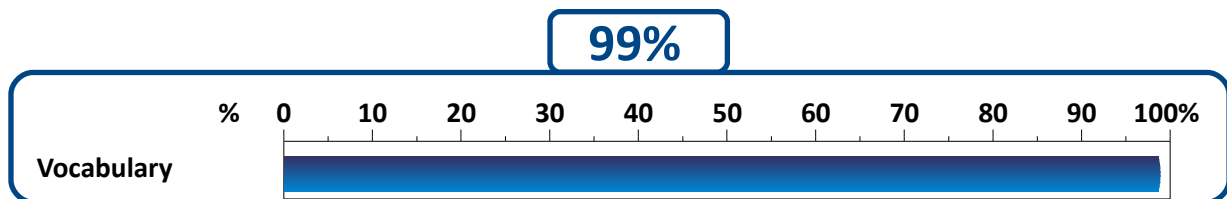

This test measures the test taker's **knowledge of English words**.

This knowledge can **greatly help** the candidate in a wide variety of situations, as it is essential for **communicating** with other English speakers, and **understanding** texts in English. In the case of native speakers, vocabulary also reflects the scope of knowledge the candidate has accumulated about the **world in general** through communication, listening and reading.

ABOUT THE RESULTS OF THE TEST TAKER

DemoUser performance on this test indicates a mastery higher than **99%** of the test takers (only 1% performed better than him). In practice, this means that he is probably much more capable of understanding English words than most people and his vocabulary can greatly help him in situations involving English language.

RESPONSE SPEED

DemoUser completed the test slower than test takers usually do.
